

Manitoba Restaurant Owners

8 OUT OF 10 RESTAURANTS ARE NOT INSURED PROPERLY.

Restaurant owners are setting themselves up for a major disaster.

Consider the story of Charlie D., a well-respected restaurateur. One Saturday evening, during peak times, the power pole on the corner got hit with lightning, causing a power outage at his restaurant. With no cooking facility working, Charlie was forced to send his patron's down the street to a competitor. On Monday morning, Charlie called his broker to inform him of the loss. After 2 days had passed, Charlie soon found out that he was **NOT COVERED** for an off-premises power failure! It was a hard lesson Charlie learned about placing insurance with someone who was a good guy but did not specialize in the restaurant industry!

Don't be a victim- like Charlie was.
